

# Referral Partner Program

## MYOB ERP Solutions for Bigger Business

### Helping Businesses think Bigger

As a business grows, so does its complexity and the need to invest in more capable business management software. MYOB's ERP software is designed to take care of everything a business needs, both now and in the future, so they don't get stuck with systems that slow their growth. Inventory management, streamlined sales and purchasing, job and project costing, accounting and more - all in a scalable platform.

### Rewards for Referrals

At Momentum, we value partner referrals. So if you introduce us to a prospective client you will receive a reward for simply referring them to us. If that introduction then results in a sale, you will receive another reward, the value of which depends on the size of the sale. The more referrals you provide, the more rewards you will receive.

### What do I need to do?

If you know of a business that has outgrown their current software and needs to upgrade to more capable business management software, you simply contact us and we do the rest. We will contact the business, discuss their needs and software requirements, and if appropriate recommend a MYOB ERP solution. We will keep you informed about the progress along the way.

Before you pass on the referral please make sure you have confirmed with the business that they are actively looking for new software, and are happy to be contacted by Momentum.

### What to look for in a prospective referral:

- Business is growing and becoming more complex
- Has outgrown their current software
- No access to real-time information
- Limited reporting capabilities
- Using multiple systems resulting in inefficiencies and duplicated data entry
- Needs integrated job and project costing functionality
- Needs advanced inventory management
- Has multiple entities or locations

### About Us

Momentum Software Solutions are a fully accredited, multi-award winning MYOB Platinum Partner, providing tailored MYOB business management solutions to bigger businesses throughout QLD and the Northern Territory. Based on the Sunshine Coast, we have been helping businesses think bigger for 10 years, and have over 150 clients.

At Momentum we have one of the most experienced MYOB consulting teams in Australia. All our consultants are formally accredited by MYOB, and have been handpicked for their extensive experience and expertise across all areas of business.
