Momentum Asset Advantage

Extending MYOB EXO's functionality to better manage your most valuable assets

Momentum Asset Advantage

Asset Maintenance is traditionally complex and difficult to manage. As your business grows, so does the list of assets you need to maintain. Effective asset management is critical for long-term success, and can drive efficiencies to reduce costs and improve service quality.

Momentum Asset Advantage takes the complexity out of asset maintenance, and helps you free up and manage resources to make maintaining assets a profitable part of your business.

Combining the features of MYOB EXO Fixed Assets, Serviceable Units and Job Costing, with additional custom features designed to support your business, Momentum Asset Advantage allows you to easily manage assets, including depreciation, maintenance and running costs, as well as schedule and track maintenance tasks and keep historical usage records.

Key Features

- Auto-create and update a serviceable unit from a fixed asset

- Auto-create and update a serviceable unit from a serial tracked stock item (when sold)

- Auto-create a resource (for job scheduling) from a serviceable unit

- Auto-link a serviceable unit to a job from a resource schedule

- Enter historical usage for serviceable units (e.g km's or hours at a given date)

- Enhanced serviceable units due for service dashboard
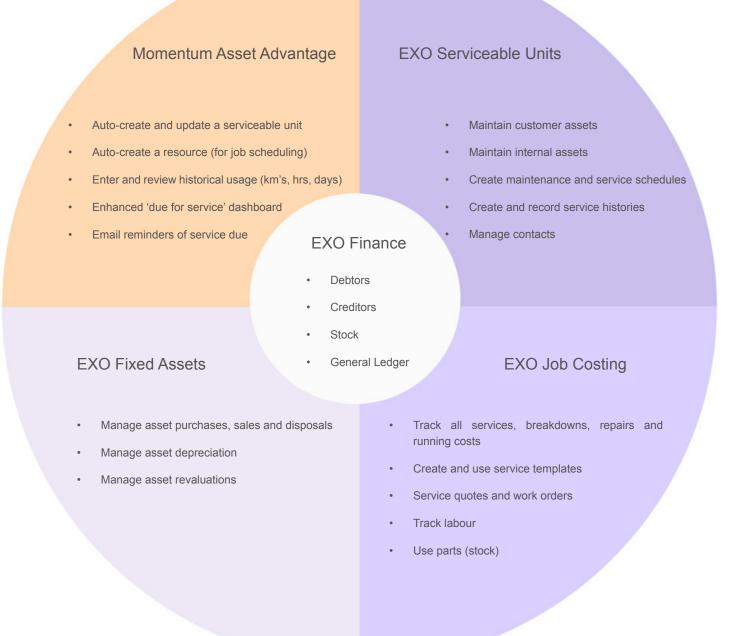

- Email reminders of service due

Momentum Asset Advantage

Taking standard asset management to the next level

Save on time and money

With Momentum Asset Advantage you can maximise your investment in MYOB EXO, and save time and money.

A separate asset maintenance software solution would be extremely costly to your business, with additional software, implementation, support and licence costs. Not to mention the costs of integrating it with an ERP system. By using a single software platform to manage your assets, you not only maximise your investment in MYOB EXO, but also gain significant savings for your business.

Fully integrated with MYOB EXO, Momentum Asset Advantage streamlines data entry, increasing efficiencies and reducing the chance of errors. You avoid duplicated data entry, and gain more control of your business.

Minimal Training and Setup

Momentum Asset Advantage requires minimal training and setup, and utilises mostly standard features of MYOB EXO you are probably already using.

Prerequisites

- MYOB EXO Finance
- MYOB EXO Job Costing
- MYOB EXO Serviceable Units
- MYOB EXO Fixed Assets (optional)
- Momentum WorkFlow Engine
- Minimum EXO Version 8.7 or higher
