Momentum Easy Maintenance

Quickly and easily backup your MYOB EXO database

Maintain Data Integrity

Momentum Easy Maintenance is an add-on that allows you to quickly and easily create backups of your live MYOB EXO database, protecting your data and providing peace of mind.
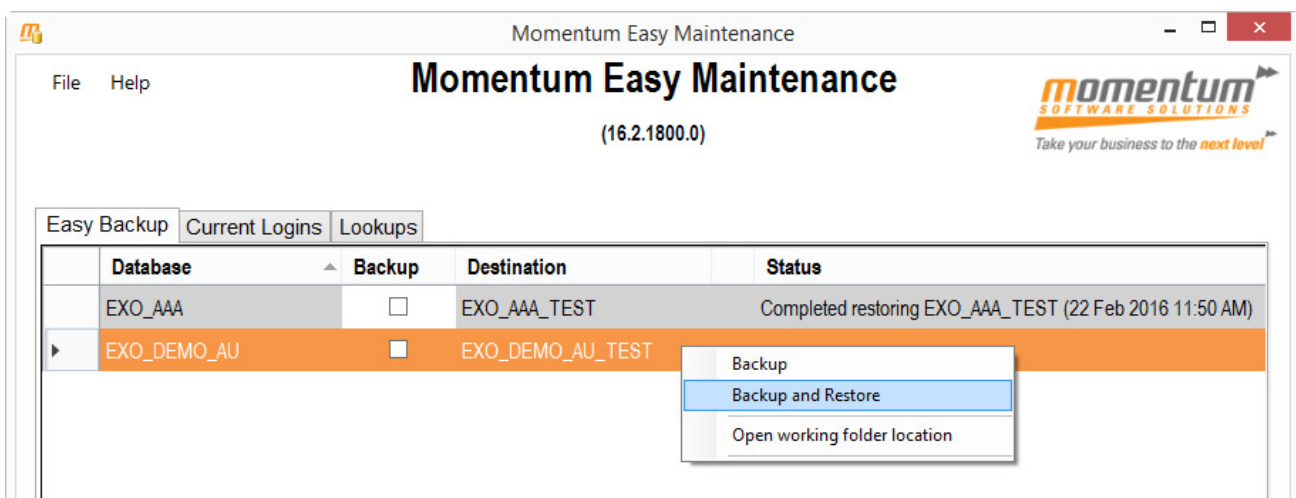

With Momentum Easy Maintenance you can run on demand or scheduled backups of your live database before you complete year end procedures, stock take, or any other key processes, which acts as a safety net for your data. With a few clicks you can also copy your live database to a test database. This allows you to train new staff or experiment with new procedures and transactions, without compromising the integrity of your live data.

Added Protection and Peace of Mind

For added protection, Momentum Easy Maintenance does an automatic backup of critical EXO folders, protecting your custom reports, forms and documents from external threats.

Key Features

- On demand or scheduled backup of your live database

- Restore a database from backup

- Copy MYOB EXO 'Live' to 'Test'

- Automatic backup of critical EXO folders

- Create custom backups and regularly refresh them from your live system

- Terminate inactive users

- Maintain custom lookup fields

# Momentum Add-ons

Momentum Easy Maintenance

Quickly and easily backup your MYOB EXO database

Terminate Inactive Users

Another handy feature in Momentum Easy Maintenance is the ability to terminate inactive users from their MYOB EXO session. Easy Maintenance allows you to see which users are logged into MYOB EXO, when their last activity was, and then gives you the option to close their connection. This is a great tool if you have reached your user count limit and need to log an inactive user out of MYOB EXO quickly and easily.

Prerequisites

- Minimum EXO Version 8.7 or higher

- .NET
