Training

Training is offered online at the Sage Intelligence Academy, from a very basic level to the most advanced and up-to-date techniques.

For more information, visit:

www.alchemex.com.au/training/sage-intelligence-training/

www.alchemex.com.au/training/excel-training/

Customised training courses can also be tailored for companies who prefer face-to-face delivery.

Support

Alchemex offers product related support, template upgrades and training support, included as part of the mandatory annual maintenance.

Our support desk can be contacted at support@alchemex.com.au or visit www.alchemex.com.au/support-ticket/

Consulting

Alchemex has a network of experienced report writers. If you know what you need but don't have the time to do it, we can help you!

Once we have created new templates for you, maintenance is easy, requiring only the most basic of Microsoft Excel skills.

For more information or a quotation email consulting@alchemex.com.au

or visit www.alchemex.com.au/consulting/how-we-work/

The Sage Intelligence Community

With over 3500 of the best report writers worldwide, the Sage Intelligence Community is a huge information hub. If you can't find the answer or figure out an issue, visit the community!

Content is monitored and updated daily, you can ask questions and someone out there will have the answer. Remember, Sage Intelligence is branded as many products – but the core software remains the same.

Reporting Solutions

Sage Intelligence Reporting provides your business with the competitive edge by enabling quick and easy access to **real-time** information required for operations and strategic planning.

Effortlessly create reports and analyse data from **consolidated** sources.

Take it one step further and combine your data from **disparate** databases within your office environment. Improve the **productivity** of your financial staff, enhance report **presentation** and **streamline** report preparation.

With Sage Intelligence Reporting, you can spend more time focusing on information analysis and interpretation and less time pulling the data together.

Why choose Sage Intelligence?

Smart and Simple

- More straightforward to use than other complex reporting tools on the market
- Increases productivity by eliminating manual report preparation, repetitive data extracts and complex back-end data joins.
- Provides up-to-date, accurate and presentation-quality reports for informed decision-making, at the click of a button.

A Familiar Interface

- Utilises the Microsoft® Excel® interface, leveraging current knowledge of Excel to ensure reporting needs are quickly fulfilled

Not familiar with how to use Excel? Not to worry!

- Access is provided to Product specific training, Excel training, 'Tips and Tricks' and support mechanisms to get you up and running quickly.

Start Reporting Immediately

- Out-the-box, easy-to-use report templates to choose from as part of the product.
- Allows you to be up and running with intuitive reporting functionality in a matter of minutes.
- Custom-tweaking of the template reports is a simple and straightforward process.

On Demand Reporting

- Sage Intelligence Reporting is a completely customisable Excel Based Reporting pack.
- Comes with a myriad of tools for data proliferation assisting making data and report distribution easy!

Key Features

- ✓ Provide real-time reporting
- ✓ Enhance productivity and presentation-readiness
- ✓ Automate financial, payroll, customer, sales, inventory and production reports
- ✓ Access transaction detail with powerful drill-down capabilities
- ✓ Obtain graphical representation of information for a complete snap-shot of your business
- ✓ Consolidate across multiple companies or divisions
- ✓ Customise or design your own Financial Reports
- ✓ Distribute monthly managerial reports automatically

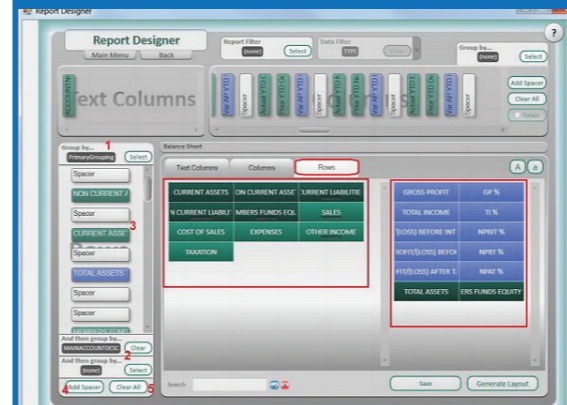

Save yourself time.
Save yourself money.

Business Intelligence. Simply.

Basic Dashboard

Drag and drop Financial Report Designer

Sage Intelligence Reporting Modules

Connector Module

The Connector module further simplifies day-to-day operational tasks by providing access to information from multiple disparate ODBC compliant databases. Choose to write your own SQL, select specific tables, create join procedures or simply use our own Graphical Join Tool to connect tables within your databases. This module allows consolidation of databases or companies when creating reports.

Report Manager

The Report Manager allows creation of new reports as well as organisation, creation and editing of existing reports. It also provides filtering of data without the need for specialised training or knowledge.

Report Viewer

This tool provides basic editing capabilities and drill-down functionality on existing reports/templates. Report Viewer licenses can be provided to staff who do not need to create new reports and only need run-time access.

Financial Report Designer

The powerful Designer tool allows users to build advanced financial report layouts via a simple, intuitive 'drag and drop' designer interface. It includes pre-built layouts to get you started, especially for segmented reporting and automated distribution.

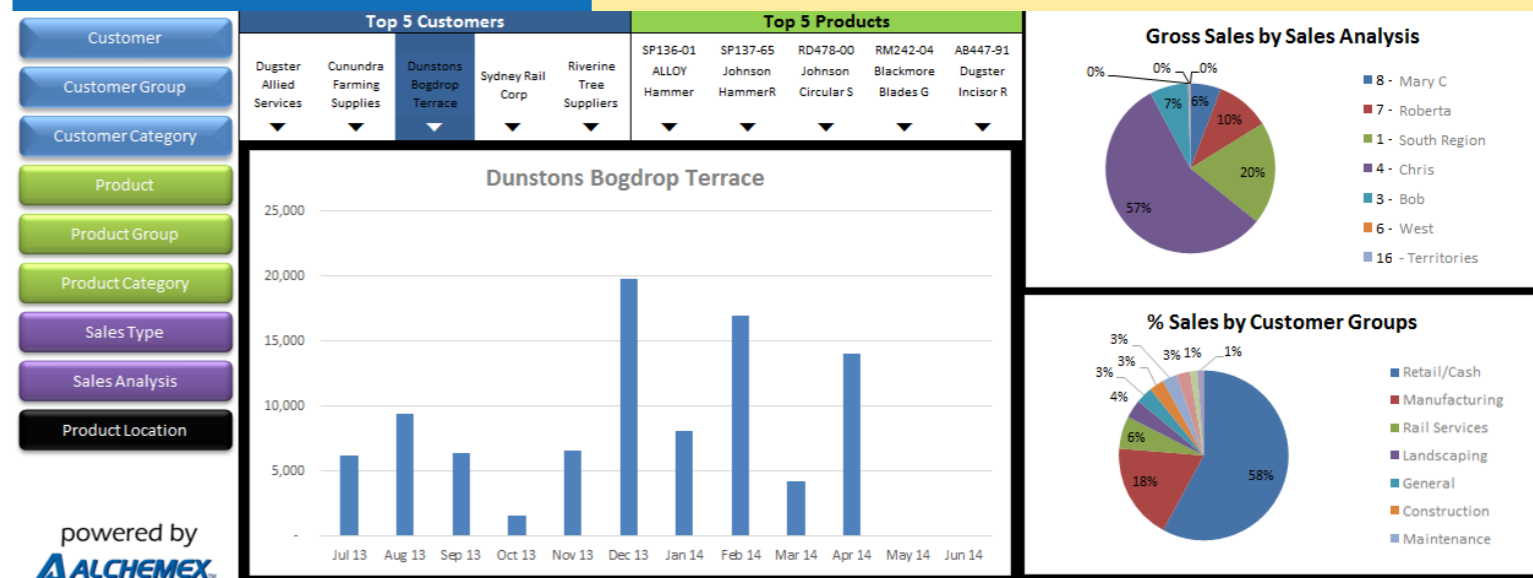

Pre-built Report Templates

Sage Intelligence Reporting ships with a powerful set of standard reports and templates* such as Financial Reports (Balance Sheets and Income or P&L Statements), Sales, Inventory and Purchasing Reports. Explore data interactively with the included Management Dashboard which draws information from multiple sources into an easy to understand, unified display.

Security Module

Enables flexible control of access to databases, report folders, reports and reporting functions. Ensures that access to important or sensitive reports is securely controlled.

*Standard Report Templates for certain products only
