### Notes

8.  The price above reflects a price per franchisee i.e., if you have 17 franchisees, the monthly subscription is 17 x $25 = $425 per month.
9.  Each franchisee requires a connector license in order to create a connection between the MYOB Advanced site and the MYOB AccountRight site.
10. Franchisee users connecting to the customer portal to administer their connection will need to be assigned a portal user license.
11. We recommend engaging with the MYOB franchising team when working on a franchise opportunity. Please contact your Account Manager for more details.
12. Only a single license is required per system as the connector can be used across multiple tenants.

20. Campaign emails must be used in the subscription month purchased. Any unused emails are not rolled over.
21. A restriction of 5 tenants will currently remain, however, additional tenants can be requested at no additional charge through the existing order process. The limit of 5 tenants will be removed in a future release which will be detailed in release notes.
22. Customer portal access licence totals are cumulative across active companies in an MYOB Advanced service.
23. Exceeding resource (storage space, campaign emails, companies and customer portal accesses) entitlements at any time in a month will automatically incur a charge. For the purposes of calculating charges, consumption is rounded up to the nearest chargeable level (e.g., If a service uses 25.2 GB of data but is only entitled to 20 GB of storage, then a charge of $19.00 will be levied – equivalent to an additional 10 GB of storage @$19/10 GB).
24. Subscription charges for resources are not discountable and do not qualify for Partner Margins.
25. SMS Messaging must be used in the subscription month purchased.  Any unused messaging is not rolled over. SMS Messaging is only available from release 2021.1.

28. Sandboxes are available for testing and training and are not permitted for the purposes of trading. Certain functions, such as but not **limited** to emailing, are disabled in sandbox systems.
29. At their own discretion, MYOB may provide sandboxes at no charge for support or EAP purposes. These sandboxes are to be used for their intended purposes only and will be removed by MYOB at the conclusion of that intended purpose.
30. Sandboxes have less system resources than production accounts and as such may not perform in the same manner and do not include any service level commitments.
31. Subscription charges for sandbox environments are not discountable.
32. The minimum period for an on-demand sandbox is 1 month.

35. Accounts may be upgraded to higher editions, but downgrades are not possible within the same account.
36. MYOB will support an ongoing discount of 10% for registered not-for-profit organisations. This discount is standalone and cannot be used in conjunction with any other discount.
