

# Inventory in Wiise

## Get on top of your inventory, cut costs and meet demand

Is inventory management costing you too much and getting out of your control? Are you finding it tough to keep up with today's rapidly shifting demand? Wiise ERP helps you manage supply and demand all while giving you a detailed view of your inventory.

### What's out of the box?

- ✓ Full inventory management
- ✓ Multi-level kitting and BOM
- ✓ Logical supply planning
- ✓ Advanced inventory control (with business licence)
- ✓ Landed cost
- ✓ Item tracking by batch and serial numbers
- ✓ Auto-replenishment

### **Inventory management**

Get the complete picture. When you need to see what's in stock or find an item quickly, Wiise gives you a full view of item availability at your fingertips.

### **Advanced inventory control**

Keep it lean and save. Get a clear picture of what's selling and what's not, your current stock levels, what's due for delivery, what's available across your locations and what stock is reserved for sale. Offer substitutions seamlessly. Plus, smart forecasting tells you when it's time to reorder.

### **Multi-level BOM and assembly**

Customise to order. Easily link customer orders with available stock, including parts that need to be assembled. See all components needed, build to order and get orders out the door faster.

### **Landed cost**

Know the true cost of your imported and transported goods upfront, including the purchase price, transportation costs and any duties and taxes. It's easy to see your profitability and apportion costs per unit.
