

Job costing in Wiise

Better planning and accuracy with project and job costing

Whatever your industry or project type, set up jobs your way — fixed price or variable (time and materials). See the full job history, no matter what accounting period it's in. Improve cost accuracy and budget by quoting for individual resources, items or requirements for each section of the job. Track line items end-to-end including billable and non-billable items. Then measure how well you've budgeted to see where you can improve.

What's out of the box?

- ✓ Detailed project and job costing
- ✓ Capacity planning
- ✓ Track projects at a glance
- ✓ Integrated timesheets
- ✓ See budget vs actuals
- ✓ Report on outstanding orders
- ✓ Time-saving template copying

Flexible projects and job costing

Design your jobs for any project type. Set up jobs your way — fixed price or variable (time and materials). Plus, see the full job history, no matter the accounting period.

Flexible billing and streamlined invoicing

Billing in Wiise is flexible. You can bill at the beginning or end of a project, progressively, by time and materials or by milestone. Whatever works for your business.

Budget vs actuals

Compare your budget, forecast and actuals to drive profits. Get a detailed view of all your job costs, resources, and timelines, and get an accurate view of your profitability while budgeting against actual spend.

Integrated timesheets

Connect timesheets to projects and payroll. A great time-saver. They're fully integrated with job costing and Wiise Payroll so there's less data entry and times are accurate. Create timesheets in bulk, pre-filled with your team's jobs.

Auto-calculate WIP

Understand your progress and performance. Record and monitor usage and consumption of materials, resources and other expenses through Work in Progress (WIP). Get a true picture of jobs with accurate financial reports.

Microsoft Office integration

It's easy to make changes for clients, apply them to jobs and create POs or invoices in reply to your client's request. It's simple to create or set up purchase orders and invoices tied to your jobs.

Capacity planning

See all your resources clearly. Get a good understanding of availability, capacity, allocation and expected costs against actual costs. Track what resources are being used.
