

Momentum ELMO to MYOB Acumatica Payroll Connector

Get the best of both worlds:

Connect your MYOB Acumatica Payroll with
ELMO's wide range of HR solutions

Why the partnership?

Best-in-class ERP solution MYOB Acumatica Payroll offers deep functionality, while single-platform HR solution ELMO Software offers efficiencies and a superior user-experience across a range of HR requirements. But just like your payroll team, your payroll data shouldn't live in a silo.

That's why Momentum and ELMO have teamed up to deliver an integrated experience by developing an API connector that lets MYOB Acumatica Payroll users seamlessly integrate with ELMO Software, giving them access to ELMO's wide range of HR solutions.

About Momentum Software Solutions

Momentum Software Solutions are a fully accredited, multi-award-winning cloud-based ERP implementation consultancy. As an MYOB Diamond Partner, Momentum implements and support businesses in a wide range of industries using MYOB Acumatica

About ELMO Software

ELMO offers a comprehensive suite of HR and payroll solutions all available within a single user interface. ELMO helps streamline your HR & payroll processes to increase productivity and efficiency.

What the partnership means for you

Momentum and ELMO can work with you to help your organisation:

- Connect your MYOB Acumatica Payroll and ELMO HR software for greater automation.
- Add additional functionality to and streamline your existing Payroll & HR processes.
- Reduce administrative work and double data entry to save time and increase productivity.
- Achieve a higher level of regulatory compliance by ensuring data is accurate across systems.
- Gain total employee lifecycle management and improve your employee experience.
