

MYOB Advanced

## Momentum ELMO to MYOB Advanced Payroll Connector

Get the best of both worlds:

# Connect your MYOB Advanced Payroll with ELMO's wide range of HR solutions

### Why the partnership?

Best-in-class ERP solution MYOB Advanced Payroll offers deep functionality, while single-platform HR solution ELMO Software offers efficiencies and a superior user-experience across a range of HR requirements. But just like your payroll team, your payroll data shouldn't live in a silo.

That's why **Momentum and ELMO have teamed up to deliver an integrated experience** by developing an API connector that lets MYOB Advanced Payroll users seamlessly integrate with ELMO Software, giving them access to ELMO's wide range of HR solutions.

#### About Momentum Software Solutions

Momentum Software Solutions are a fully accredited, multi-award-winning cloud-based ERP implementation consultancy. As an MYOB Diamond Partner, Momentum implements and support businesses in a wide range of industries using MYOB Advanced Business.

#### About ELMO Software

ELMO offers a comprehensive suite of HR and payroll solutions all available within a single user interface. ELMO helps streamline your HR & payroll processes to increase productivity and efficiency.

### What the partnership means for you

Momentum and ELMO can work with you to help your organisation:

- Connect your MYOB Advanced Payroll and ELMO HR software for greater automation.
- Add additional functionality to and streamline your existing Payroll & HR processes.
- Reduce administrative work and double data entry to save time and increase productivity.
- Achieve a higher level of regulatory compliance by ensuring data is accurate across systems.
- Gain total employee lifecycle management and improve your employee experience.
