

MYOB Advanced Construction

The MYOB Advanced Autumn Release 2023 has touched down. Boost your experience with brand new features. Get greater visibility with enhancements that streamline your workflows. And experience connectivity that'll blow your mind. Explore updates to MYOB Advanced Business, and unleash your business's full potential.

Project Trusts

New Project Trusts features make it easier to stay compliant with new Queensland government reforms.

- Easily set up project and retention trusts within MYOB Advanced Construction.
- Use in-built reporting capability to help satisfy new auditing and reporting requirements.
- Automate mandatory communication to trust principals and beneficiaries.
- Provide a single source of truth for management of project trusts.

Drawing Logs and Submittals

New Project Management screens allow you to manage Drawing Logs and Submittals via mobile.

- Use MYOB Advanced app to manage Drawing Logs and Submittals anytime, anywhere.
- Field users can now review, create or update drawing logs and submittals via mobile.
- Delivers mobile friendly workflows for managing important project documents.

Project Worksheets

Enhance your visibility of project progress and productivity with improved task and unit-level reporting capability.

- Create automated multi-approver workflows to improve control while reducing bottlenecks in your business.
- Helps project managers to track project productivity and define the potential impact of these activities on the project schedule and cost budget.
- Gain improved visibility of project task execution.

Stock and Non-Stock Item conversion

Experience usability improvements to managing Change Orders and Change Requests, and boost efficiency.

- Users can now close Change Requests that are linked to cost-only Change Orders, cancel Change Orders and Change Requests without rejected documents affecting project budget amounts.
- Eliminates user confusion and improves the Change Order and Change Request workflows.
