Payroll API User Type	Notes	Qty	Monthly
Payroll Full Access API	6		\$75

Notes

- Each Payroll installation must have at least one Payroll Administrator Entitlement. The Full Access User and FinanceUser contain a Payroll Administrator User entitlement. Otherwise the Entitlement is available via the Payroll Administrator User.
- Payroll licensing is calculated on the upper limit of the selected band. The Payroll employee band is selected on the total number of unique employees being paid per month across all companies and pay frequencies.
- Payroll can only be purchased in whole bands as outlined in the table above.
- Payroll flex pricing is charged for each employee that exceeds the allowable limit. This fee is charged retrospectively per billing period.
- MYOB Acumatica company entitlement limits apply.
- Payroll full API functionality is not required if the Full Access API is purchased.

Description	Notes	Qty	Per Employee
Flex Pricing - per employee	5	each	\$6.00

Notes

1. Each Workforce Management installation must have Payroll installed.
2. The Workforce Management employee band is calculated on the upper limit of the selected band.
3. Workforce Management can only be purchased in whole bands as outlined in the table above.
4. Active Users: Means each employee without a termination date recorded against them that you have authorised to use and access Workforce Management, regardless of whether that employee has actively accessed or used Workforce Management.
5. Workforce Management Flex Pricing is charged for each active user that exceeds the allowable limit. This is charged retrospectively per billing period.

Full access API	4	1	\$131	\$188	\$237	\$258	\$258

Notes

1. Each MYOB Acumatica installation includes 1 limited API User.
2. Limited API Users are restricted to 1,500 calls per day. There will be no enforced limitation on this restriction, however, sites that exceed the restriction for two months based on their billing date will be billed for, and moved onto, a Full Access API User in the following month. A site is not entitled to purchase additional Limited API Users.
3. Limited API users are restricted to one concurrent login.
4. API usage is subject to a reasonable use policy.

Resource inclusions and additional capacity pricing

Description	Notes	Qty	Standard Edition	Plus Edition	Enterprise Edition	Manufacturing Edition	Construction Edition

Additional customer portal access		100	\$56	\$56	\$56	\$56	\$56
SMS messaging	8,9	500	N/A	\$62	\$62	\$62	\$62

Notes

- Storage space consumption is calculated as the total volume of all data including database, documents, attachments and database snapshots for the service.
- Campaign emails are those sent via the mass email functions of marketing campaigns in MYOB Acumatica.
- Campaign emails must be used in the subscription month purchased. Any unused emails are not rolled over.
- A restriction of 5 tenants will currently remain, however, additional tenants can be requested at no additional charge through the existing order process. The limit of 5 tenants will be removed in a future release which will be detailed in release notes.
- Customer portal access totals are cumulative across active companies in an MYOB Acumatica service.
- Exceeding resource (storage space, campaign emails, companies and customer portal accesses) entitlements at any time in a month will automatically incur a charge. For the purposes of calculating charges, consumption is rounded up to the nearest chargeable level (e.g., if a service uses 25.2 GB of data but is only entitled to 20 GB of storage, then a charge of \$21.00 will be levied - equivalent to an additional 10 GB of storage @\$21/10 GB).
- Subscription charges for resources are not discountable and do not qualify for Partner Margins.
- SMS Messaging must be used in the subscription month purchased. Any unused messaging is not rolled over. SMS Messaging is only available from release 2021.1.
- Exceeding SMS Messaging monthly subscription will be charged at the following rates (0.11 AU * exceeded qty and 0.12 NZ * exceeded qty)

Additional services

Description	Notes	Qty	Standard Edition	Plus Edition	Enterprise Edition	Manufacturing Edition	Construction Edition
On-demand sandbox	1,2,3,4,5,6		\$282	\$282	\$282	\$282	\$282

Notes

- Sandbox entitlements mirror those of the corresponding production account (users and resources). Exceeding resource (storage space, campaign emails, companies and customer portal accesses) entitlements at any time in a month will automatically incur over-usage charges.
- Sandboxes are available for testing and training and are not permitted for the purposes of trading. Certain functions, such as but **not limited** to emailing, are disabled in sandbox systems.
- At their own discretion, MYOB may provide sandboxes at no charge for support or EAP purposes. These sandboxes are to be used for their intended purposes only and will be removed by MYOB at the conclusion of that intended purpose.
- Sandboxes have less system resources than production accounts and as such may not perform in the same manner and do not include any service level commitments.
- Subscription charges for sandbox environments are not discountable.
- The minimum period for an on-demand sandbox is 1 month.

General Notes

- The initial subscription is a minimum of 15 months and monthly thereafter.
- The MYOB Acumatica demonstration database is for presentation only and should not be used for any part of the implementation.
- Accounts may be upgraded to higher editions, but downgrades are not possible within the same account.
- MYOB will support an ongoing discount of 10% for registered not-for-profit organisations. This discount is standalone and cannot be used in conjunction with any other discount.
